EXPERIENCE

Capgemini

Jan 2026 - Present

- Worked on **Linux-based production systems**, utilizing knowledge of **C++**, **multithreading**, **socket programming**, and **SQL** to understand system behavior, debug issues, and ensure data integrity.
- Ensured reliable system performance by validating **call routing under increased traffic (20%)**, maintaining consistency and minimizing failures in a real-time environment.
- Improved **system interface performance and responsiveness** by optimizing handling of large data objects, reducing latency and enhancing overall usability.
- Analyzed and debugged **production service workflows**, tracing execution paths and resolving configuration issues impacting request processing and routing behavior.

PROJECTS

EchoX: An Echo Cancellation Website

[Link to Repo](#)

Tech Stack: HTML, CSS, Javascript, Flask, Python

- Led the design and development of a web application to process and remove echo from audio files.
- Implemented interactive UI with file-upload validation, visual loader, and alert system for smoother UX flow.
- Managed frontend visibility dynamically based on user actions, improving clarity and usability.
- Collaborated as team leader and developer, ensuring timely delivery and cohesive design.

Speech-Bridge — Speech-based Web Application

[Live URL](#)

Tech Stack: HTML, CSS, JavaScript, Flask, Python

- Developed a web platform enabling speech-to-text and text-to-speech functionalities for real-time communication.
- Integrated Python backend (Flask) for audio input processing and dynamic output rendering.
- Designed responsive UI for seamless accessibility across devices.
- Demonstrated skills in web integration, audio APIs, and end-to-end problem solving.

EDUCATION

2021 - 2025	Bachelor's Degree at Chandigarh University	(CGPA:7.56)
2020-21	Class 12th CBSE Board	(Percentage: 88.6%)
2018-19	Class 10th CBSE Board	(Percentage: 87.2%)

SKILLS

Programming Languages:	C++, Java, Python, Javascript
Web Technologies :	HTML, CSS, Tailwind CSS, React JS, Next JS
Databases:	SQL (Oracle, MySQL), MongoDB
Core CS Concepts:	DSA, OOPs, DBMS, System Design, Software Engineering
Backend Development:	Node.js, Express.js, Flask, RESTful APIs, Authentication (JWT)
Tools:	Git, GitHub, Postman
